## PROFESSIONAL SUMMARY

I am Umoh Ukpong Okon (Angel Ukpong), a Web and Blockchain Developer with 5+ years' expertise in Web2/Web3 integration, dApps, and digital transformation. With 12+ years in systems analysis, database management, and ICT-driven governance, I blend technical excellence with strategic leadership. As Founder & CEO of Joaquina ICT Development Port, I deliver scalable blockchain, web, and ICT solutions that drive innovation, sustainability, and digital growth for organizations worldwide.

## PROFESSIONAL EXPERIENCE

### Program Analyst | Akwa Ibom State Local Government Service Commission (2011–Present)

- Led ICT solutions for administration, payroll, and data systems.
- Enhanced efficiency through systems analysis, database management, and digital transformation.

### Founder & CEO | Joaquina ICT Development Port (2020–Present)

- Directed ICT consultancy and blockchain projects for businesses and governments.
- Oversaw dApp development with DevOps practices.
- Mentored developers to drive Web2/Web3 innovation.

### Web & Blockchain Developer | Remote (Ongoing)

- Delivered ICT platforms for Akwa Ibom State Government.
- Built systems for Local Government Service Commission and Abak Local Government.

## KEY SKILLS

- **Web & Blockchain Development:** React, Next.js, Solidity, MERN, Django, TALL
- **Systems & Data Management:** Systems analysis, SQL/NoSQL databases, ICT integration, data/program analysis
